“ Joy,

Condolences to you and all of your brothers and sisters and extended family. I don't have to tell you that your Mother was a giant among women. She was quiet but persistent. I remember when I was very young, watching your sister Julie. At that time your mother made such an impression on me.

I know from experience that you always need your mother, but I expect that she has left you with many memories and lessons that will help you for years to come.
