“ I only just learned of his passing, and it hit me hard. We spent some of the best years of my early adulthood together in Aspen—fly fishing, chasing water, and catching as many Grateful Dead shows as we could. Those memories are still vivid: the quiet stretches of river, the long drives, the music, and the way he made every day feel lighter. I'm grateful I got to share that time with him. Rest easy, my friend.

I just found this. He was at my house last year. He must have passed shortly after. Can someone reach me and tell me what happened? I called and he never got back 9703093498

“ Jimmy and I were good friends in grade school. We drifted in highschool, yet he always went out his way to say "hi". While I have not seen him since our highschool days, I will always remember what a really good person he was. I don't think I ever heard him say a bad word about anyone, and I only have good memories of him.
