“ I honestly had no idea you posted this video of me when I was laying some tile with you. You were a great teacher & made sure our many tasks/ side work was fun & memorable. All the pizza you fed us at woodys (your favorite place) & all the laughs we had will be truly missed. I never understood situations clearly but, I can say you loved all your grands, blood or not we was family. I didn't get a chance to thank you for all the different things you taught me, or telling me to learn from your mistakes so I could grow up to be a good man! On that note, thank you Mr. Randall for having a part in my life & accepting me. You will be missed.
