“ We are in shock to learn of this chapter of Kevin’s life. He worked for us when he lived in Maryland. He loved Polly and many never understood. He was an honest person and we cannot believe he is gone.

“ I dedicated one of my books to Kevin in a whimsical way and am repeating it here as he had a great way of phrasing his political arguments:

*To wit:*

*For Kevin R. Johnson, who's wittier than most political pundits and who needs someone to discover him, so that his witticisms can challenge those who need "witdom."*

*Your friend, Lou Ann Prosack*
