“ I would first like to say how sad I am that Bob is no longer with us! He was a brother to me and I never had a brother so it was very important to have the relationship I had with him. What a wonderful man and he will be missed by me dearly! His sense of humor made me laugh all the time. His intelligence was enlightening throughout my whole life! I can't tell you the things that I learned from him during the serious times that we were together! I loved Bob and will always love him. The thing that impressed me the most was how he dealt with my sister CAROL. She was tough! But he loved her and that was extremely evident. I will always respect him and admire him for those nearly 50 years he spent taking care of my sister. I will miss you Bob !!!
